

# Marking Key for Labs

## DMIT 1530 - Web Design Fundamentals II

Using the provided materials, all labs will be completed in-class and individually.

Each lab will be out of a total of five (5) possible marks and worth 5% of your overall grade.

### Task List

Each lab has its own task list, outlined in the provided README.md file. All of the tasks must be completed and all best practices for the web must be followed in order to receive full marks.

### Marking Key

Marks	Criteria
5	Task was completed with the highest of proficiency adhering to best practices and followed subject matter guidelines. All tasks were completed to a professional standard.
4	Above average work. Demonstrates a strong understanding of the subject matter with minor errors or minor parts of the task left incomplete.
3	Satisfactory work. Some features missing or incorrectly implemented. Shows a moderate level of understanding in the task with room for improvement.
2	Some of the task was completed. Shows a lack of understanding in the subject matter or poor execution.
1	Very little of the task was completed. Demonstrates a lack of understanding in the subject matter or very poor execution.
0	Not completed.

### Potential Deductions

Up to five (5) marks may be deducted for not following best practices for the web, validation errors, unoptimized images, incorrect pathing, improper formatting or not using semantic tags, using markup for layout purposes, inappropriate or inelegant CSS selectors, broken links, missing content or information, or spelling and grammatical errors.

Work that does not pass W3C Validation will not be accepted and will receive a mark of 0%.
